# Our Comapny

## Rosenberger Tunisia

**2020**

Company foundation

Location: Novation  
Industrial City in ENFIDHA-  
Sousse

# Our Selection Process

# Our Selection Process

# Our Project Ideas

# Engineering Department

**Project Description :**  
Development and design of a semi-automatic gasket insertion system

**Speciality :**  
Mechatronics / Automatic

**Needed Qualification:**  
Engineer

**ID Project: EN1**

**Project Description :**  
Development and implementation of a scanning system on a machine

**Speciality :**  
Computing / Information technology

**Needed Qualification:**  
Engineer

**ID Project: EN2**

# Logistic Department

**Project Description :**  
Lean material supply to production

**Speciality :**  
Logistic

**Needed Qualification:**  
Engineer

■ ID Project: Log1

**Project Description :**  
KANBAN driven cutting process steering

**Speciality :**  
production control

**Needed Qualification:**  
Licence

■ ID Project: Log2

# Logistic Department

**Project Description :**  
**Profitability of Vendor managed Inventory in Morocco**

**Speciality :**  
**Sales/Logistics /Management**

**Needed Qualification:**  
**Licence / Master**

**ID Project: Log3**

**Project Description :**  
**Assessment for AEO (Authorised Economic Operators) status**

**Speciality :**  
**Customs / Management/Logistic**

**Needed Qualification:**  
**Licence / Master**

**ID Project: Log4**

# Human Resources Department

**Project Description :**  
Integrate AI in recruitment process

**Speciality :**  
IT

**Needed Qualification:**  
Engineer/master

**ID Project: HR1**

**Project Description :**  
Implementation of COOC (corporate online open course) training

**Speciality :**  
IT

**Needed Qualification:**  
Licence /Master

**ID Project: HR2**

## Project Description :

**Carbon footprint analysis in  
accordance with ISO 14067:2018  
Greenhouse gases - Carbon footprint  
of products - Requirements and  
guidelines for quantification**

## Speciality :

**Electric**

## Needed Qualification:

**Engineer**

**ID Project: QM1**
