About Us

At Guepard, we are redefining the way companies store, manage, and access data through our innovative serverless data infrastructure.

Our mission is to empower developers, analysts, and testers with instant provisioning and resource optimization.

With Offices in France & California, we are rapidly scaling our vision to shape the next generation of data operations.

How to apply

You can apply directly through our Hiring Portal on **Fabskill**.

Join our passionate team and play a pivotal role in building the foundation of tomorrow's data infrastructure.

2 Software Engineers

PFE BOOK 2025

We are seeking a Software Engineer to help develop and scale our cutting-edge platform. You will work on building high-performance, secure, and scalable systems in **Rust, React & NextJS**.

This is an opportunity to work with a team of seasoned entrepreneurs and engineers committed to making a lasting impact on the industry.

Key responsibilities

Design, implement, and maintain robust back-end systems using Rust.

Collaborate with cross-functional teams to develop scalable solutions for serverless data infrastructure.

Build and maintain APIs that enable seamless integration with our platform.

Contribute to the development of Interfaces to consume Guepard Engine.

Participate in code reviews, testing, and deployment processes to ensure high-quality deliverables.

Qualifications

Proven experience in software development.

Strong knowledge of serverless architectures and cloud-based solutions.

Understanding of containerization and orchestration tools (e.g., Docker, Nomad, Kubernetes).

Familiarity with building APIs and working in a microservices architecture.

Excellent problem-solving and communication skills.

i Preferred

Knowledge of Rust and multitenant security frameworks.

Experience with Supabase, Makerkit, or similar platforms.

Prior exposure to AI tools and their integration with databases.

Apply 

We are seeking a skilled AI/Data Engineer to develop and enhance our platform's data processing and automated compliance capabilities. This role bridges compliance and AI and requires an interest in cybersecurity practices and compliance frameworks.

You'll design intelligent agents to **automate data masking, encryption, and access control, ensuring compliance with standards like ISO27001 and SOC2 and data protection laws such as GDPR, DPA and CCPA.**

Key responsibilities

Develop AI-powered tools for automating compliance, data masking, and anomaly detection.

Collaborate with the product team to integrate AI agents into our data management platform.

Contribute to the development of federated and multi-tenant data environments with controlled access.

Build enterprise grade, reliable, and trustworthy software/services from the ideation to production.

Qualifications

Strong experience in Generative AI and Natural Language Processing (NLP), with a proven track record of developing AI-driven solutions.

Proficiency in Python with hands-on experience using key NLP frameworks and libraries (e.g., SpaCy, Transformers).

Solid understanding of machine learning techniques applied to text data analysis, pattern recognition, and data classification.

Proficiency in building data pipelines and workflows in cloud environments.

Strong problem-solving and analytical skills.

i Preferred

Understanding of user-centric privacy principles.

Knowledge of cybersecurity and database administration best practices.

Prior exposure to AI applications in databases. Ability to conduct independent research and implement software based on related academic publications.

Apply 

Social Media Officer

PFE BOOK 2025

We are looking for a strategic and creative Social Media Officer to lead Guepard's online presence and marketing initiatives. In this role, you will create and execute campaigns that drive brand awareness, generate leads, and foster community engagement.

You will be responsible for managing Guepard's digital channels, analyzing performance metrics, and crafting compelling narratives that position Guepard as a leader in data infrastructure.

Key responsibilities

Develop and execute digital marketing strategies to grow Guepard's online presence.

Manage and optimize marketing campaigns across platforms, including LinkedIn, TikTok, Twitter, and email.

Create engaging content, such as blog posts, videos, and social media updates, to highlight Guepard's solutions and values.

Monitor and analyze digital marketing performance metrics, providing actionable insights.

Manage SEO, SEM, and PPC campaigns to increase website traffic and lead generation.

Collaborate with the product and sales teams to ensure consistent messaging and alignment.

Drive community engagement through creative initiatives, events, and partnerships.

Stay updated on industry trends and incorporate them into Guepard's digital marketing efforts.

Qualifications

Proven experience in digital marketing, with a focus on B2B and technology sectors.

Proficiency in marketing tools such as Google Analytics, HubSpot, or equivalent.

Strong understanding of social media platforms and trends, especially LinkedIn and TikTok.

i Preferred

Excellent copywriting skills and the ability to craft compelling narratives.

Experience managing paid advertising campaigns (e.g., Google Ads, LinkedIn Ads).

Data-driven mindset with the ability to interpret analytics and optimize campaigns.

Apply 

Content Creator

PFE BOOK 2025

We're looking for a creative and enthusiastic Content Creator Intern to help us develop engaging content for our platform and marketing initiatives. In this role, you'll work closely with our marketing and product teams to produce videos, reels, TikToks, and other digital assets. Your work will showcase Guepard's transformative technology and connect with our target audience across multiple channels.

This internship offers hands-on experience in storytelling, content production, and digital marketing, ideal for individuals looking to grow their creative portfolio.

Key responsibilities

Produce engaging short-form video content, including TikToks, Instagram Reels, and YouTube Shorts.

Develop scripts and storyboards that align with Guepard's brand voice and goals.

Edit and refine video content to meet platform standards and audience expectations.

Collaborate with the marketing team to create content calendars and campaigns.

Conduct research to stay updated on trending content formats and techniques.

Assist in creating educational and promotional content for Guepard's platform, including tutorials and explainer videos.

Qualifications

Passion for storytelling and a creative mindset.

Basic video production and editing skills (e.g., using tools like Adobe Premiere Pro, Final Cut Pro, or CapCut).

Familiarity with social media platforms, especially TikTok, Instagram, and YouTube.

Ability to work independently and meet deadlines. Strong communication skills and attention to detail.

i Preferred

Experience creating content for technology or startup-focused audiences.

Understanding of digital marketing principles and trends.

Knowledge of Video Production techniques.

Apply 

We are looking for a creative and detail-oriented UX/UI Designer to lead the design of Guepard's platform and digital interfaces. In this role, you will work closely with our product and engineering teams to create intuitive workflows and visually appealing designs that resonate with our users.

Your work will play a critical role in ensuring that our platform is easy to use, meets the needs of our customers, and reflects Guepard's brand identity.

Key responsibilities

Design intuitive user experiences for Guepard's platform, focusing on functionality and user satisfaction.

Create wireframes, prototypes, and high-fidelity designs for web and mobile interfaces.

Collaborate with product managers, developers, and other stakeholders to translate requirements into user-friendly designs.

Conduct user research, usability testing, and feedback analysis to iterate on designs.

Ensure consistency in visual design, typography, and branding across all digital touchpoints.

Develop and maintain Guepard's design system and component library.

Stay updated on industry trends and best practices in UX/UI design.

Qualifications

Proven experience as a UX/UI Designer with a strong portfolio showcasing web and mobile designs.

Proficiency in design tools such as Figma, Adobe XD, or Sketch.

Solid understanding of user-centered design principles and methodologies.

Experience creating wireframes, user flows, and prototypes.

Strong collaboration and communication skills, with the ability to present and explain design concepts.

Attention to detail and a passion for creating visually stunning designs.

i Preferred

Experience designing for tech or data infrastructure platforms.

Knowledge of front-end technologies like HTML, CSS, or JavaScript for better collaboration with developers.

Apply 

What we offer

- A dynamic and innovative work environment at the forefront of data infrastructure.
- Opportunities to contribute to groundbreaking technologies in a fast-growing startup.
- Flexible work arrangements and support for personal development.
- A collaborative culture driven by impact, creativity, and innovation.
